Sub-PRD 1 — Client Admin Platform - Org Hierarchy & RBAC

> ⚠️ **V1 SCOPE LOCKED — March 20, 2026**
> Team Manager: **V2 — REMOVED FROM ALL V1 CODE.**
> role=TEAM_MANAGER never added to admin_users in V1.
> Groups: **V2 — REMOVED FROM V1.** No groups table, no LearnerGroupMembership in V1.
> V1 scope = Departments + Teams CRUD + Learner assignment to dept/team only.

Document Type: PRD — Detailed Feature Spec with BDD Acceptance Criteria

Parent Document: Client Admin Master PRD

Author: Sandesh Banakar I

Status: IN SCOPE — V1 (Departments + Teams only)

V1 Scope: Department CRUD + archive, Team CRUD + archive, Learner assignment to dept/team. NO Team Manager. NO Groups.

---

1. Problem This PRD Solves

B2B coaching centres and corporate training clients need to organise learners into meaningful groups and manage them without Super Admin intervention.

V1 solution: 2-level hierarchy — Department → Team. Learner belongs to one Department and optionally one Team within it. Client Admin manages everything.

V2 additions: Groups (cross-cutting), Team Manager (dept-scoped admin), restore/un-archive.

---

2. Scope Boundaries

In Scope (V1)

- Department CRUD (create, edit, archive)
- Team CRUD (create, edit, archive) within a Department
- Learner assignment to Department + Team
- Learner move between Departments (Client Admin only)

- All audit log events for org hierarchy actions
- All edge cases

Out of Scope — V2

- **Team Manager** — role, assignment, scoped access, sidebar. NEVER add to V1 code.
- **Groups** — create, manage members, archive. NEVER add to V1 code.
- **Group-based content assignment** — V2.
- **Restore/un-archive** — archive is permanent in V1.
- Sub-departments beyond 2-level (Dept → Team) — V2.

---

3. Role Definitions (V1 ONLY)

V1 Role Hierarchy

```
Super Admin (platform-wide)
    └── Client Admin (one per tenant, full tenant scope)
            └── B2B Learner (content access only)
```

Team Manager: V2. Never appears in V1 code, V1 UI, or V1 role selectors.

Client Admin — V1 Specification

Attribute	Value
Count per tenant	Exactly one in V1
Assigned by	Super Admin (+ CA can add Content Creators for FULL_CREATOR tenants)
Scope	Full tenant
Can manage Team Managers	N/A — V2
Can see other tenants	No
Can modify contract / seat count	No — read-only

RBAC Enforcement (V1)

All API requests inject `tenant_id` from URL slug (demo) / JWT (production).
CLIENT_ADMIN: full access within tenant scope.
No TEAM_MANAGER enforcement needed in V1 — role does not exist.

---

4. Left Sidebar Navigation Structure (V1)

Client Admin Sidebar

```
┌──────────────────────────┐
│  keySkillset             │
│  [Tenant Name]           │
├──────────────────────────┤
│ 🏠  Dashboard            │
│ 🏛️  Organisation         │  ← Departments, Teams
│ 👥  Learners             │
│ 📚  Catalog              │
│ 📁  Content Bank         │  ← FULL_CREATOR only (hidden for RUN_ONLY)
│ 📊  Reports              │
│ ⚙️   Settings            |
└──────────────────────────┘
```

Team Manager sidebar: V2. Not built in V1.

Organisation Section — Sub-navigation (V1)

Organisation page → two tabs:

```
Organisation
├── Departments    ← Default active tab
└── Teams          ← Shows all teams across all depts (or within a selected dept)
```

Groups tab: V2. Not shown in V1.

---

5. Department Management (V1 Full Spec)

5.1 Create Department

Form fields: Department Name* (max 100 chars, unique within tenant case-insensitive), Description (optional, max 500 chars)

Team Manager field: REMOVED FROM V1 FORM.

On save: Department created with `status = ACTIVE`. Audit: `DEPARTMENT_CREATED`.

5.2 Edit Department

Editable fields: Name, Description only.
Team Manager change rules: V2. No TM assignment in V1 edit form.

5.3 Archive Department

Pre-archive check: warn if department has active learners.

On confirm:

- All learners in Dept → `department_id = NULL` (Unassigned pool), `team_id = NULL`
- All Teams within Dept → archived

- Department `status = ARCHIVED`
- Audit: `DEPARTMENT_ARCHIVED`

Restore/un-archive: V2. Archive is permanent in V1.

---

6. Team Management (V1 Full Spec)

6.1 Create Team

Who can create: Client Admin only (Team Manager = V2).

Form fields: Team Name* (max 100 chars, unique within department), Description (optional)

On save: Team created with `status = ACTIVE`. Audit: `TEAM_CREATED`.

6.2 Archive Team

On confirm:

- All learners in Team → `team_id = NULL` (remain in parent Department)
- Team `status = ARCHIVED`
- Audit: `TEAM_ARCHIVED`

---

7. Groups (V2 — NOT BUILT IN V1)

Groups are entirely V2. No groups table, no LearnerGroupMembership, no Group management UI in V1.

Content assignment to Groups: V2.
Reporting by Group: V2.

---

8. Learner Org Assignment (V1)

8.1 Assigning Learner to Dept/Team

Done at:

- Learner creation (manual add form — Department dropdown, Team dropdown)
- CSV bulk upload (`department_name`, `team_name` columns)
- Learner profile → Edit → change Department (Client Admin only)

8.2 Moving a Learner Between Departments

Who can: Client Admin only.

On move: `learner.department_id` updated, `learner.team_id = NULL` (unless new team also specified).
All assessment history, content access, certificates retained.
Audit: `LEARNER_MOVED`.

---

9. Org Hierarchy State Machine (V1)

```
DEPARTMENT:  ACTIVE ——— archive ———► ARCHIVED  (no restore in V1)
TEAM:        ACTIVE ——— archive ———► ARCHIVED  (no restore in V1)
LEARNER ORG: UNASSIGNED ← dept_archived → ASSIGNED_TO_DEPT ← move → ASSIGNED_TO_DEPT_AND_TEAM
```

---

10. Audit Event Reference (V1)

Action	Trigger	Actor
DEPARTMENT_CREATED	New dept saved	Client Admin
DEPARTMENT_UPDATED	Name/desc changed	Client Admin
DEPARTMENT_ARCHIVED	Dept archived	Client Admin
TEAM_CREATED	New team saved	Client Admin
TEAM_UPDATED	Team name/desc changed	Client Admin
TEAM_ARCHIVED	Team archived	Client Admin
LEARNER_MOVED	Learner moved between depts	Client Admin

TEAM_MANAGER_ASSIGNED, LEARNER_ADDED_TO_GROUP, GROUP_CREATED, etc.: V2.

---

11. Edge Cases (V1)

Edge Case	System Behaviour
Create dept — no Team Manager	Valid in V1 — Team Manager field does not exist
Try to assign learner to ARCHIVED dept	Blocked — "This department is archived."
Archive dept with active learners	Warning shown: "X learners will become Unassigned."

Archive team with learners	Learners moved to parent dept (team_id = NULL)

End of PRD 1 — Org Hierarchy & RBAC v2.0 (V1 scope locked March 20, 2026)
Team Manager: V2 | Groups: V2 | Restore/un-archive: V2
